

Chapter 12 _____**Sciatica - Yellow Fever**

SCIATICA. Birth-chart constants: Mercury or Uranus severely afflicted, and a planet afflicted in Sagittarius or less commonly Jupiter afflicted. Progressed constants: An affliction involving Mercury or Uranus, or an aspect involving Mercury or Uranus at the same time there are severe rallying forces, and an aspect involving a planet in Sagittarius, or less commonly involving Jupiter.

Stellar Treatment: Sciatica is neuralgia, or if Uranus or Mercury is afflicted by Mars in the birthchart and there is a progressed aspect involving Mars, it may be neuritis, affecting the sciatic nerve. The treatment, therefore, should be the same as for neuralgia or neuritis except that the thought-cells mapped by any planet in Sagittarius should be given the planetary energy of their antidote, and the zone occupied by Jupiter should be given Mercury planetary energy. Effort should be made to relieve any strain or pressure on the sciatic nerve. Sitting a long time on a hard chair, prolapsed abdominal viscera, enlargement of the prostate gland, standing too long at a time, or any other condition which brings pressure on the nerve may be a contributing cause. Rest in bed for a few days is helpful when strain due to working conditions is a contributing factor. Electromagnetic energy applied to the nerve is beneficial.

Example: Chart 7285. Female, December 3, 1916, noon. 74W. 40:43N. Uranus semi-square Moon, Sun in Sagittarius sesqui-square Jupiter. In September, 1940, with Mercury parallel Mars p, Uranus semi-square Mars r and Moon r, and Asc. trine Mercury r in Sagittarius, developed sciatica.

SHINGLES (HERPES ZOSTER). Birth-chart constants: An upper-octave planet prominent and afflicted, Venus afflicted and Mercury afflicted.

Progressed constants: An aspect involving an upper-octave planet, an aspect involving Venus, and an aspect involving Mercury, at the same time there are severe rallying forces.

Stellar Treatment: The blisters form along the course of a sensory nerve. Nervous tension should be avoided, and calm, peaceful and optimistic thinking of the Jupiter type cultivated. The diet should contain calcium, vitamin B-1, vitamin D, vitamin A and vitamin E, iodine and copper. Wheat germ meal is a good source of vitamin E. Electromagnetic passes may be used to soothe the pain, which may continue after the blisters have disappeared. Saturn planetary energy should be applied to the zone occupied by Venus, the planetary energy of its antidote should be applied to the zone occupied by the afflicted

upper-octave planet, and Jupiter planetary energy should be given the zone occupied by Mercury. If the blisters form on the eyelids or eyeball, the pupil should be kept dilated with atrophine and the eye bathed with boracic lotion under competent medical supervision.

Example: Chart 7286. Female, February 9, 1906, 4:00 a.m. 121:14W. 50:42N. Uranus in an angle opposition Neptune, Venus and Mercury opposition Moon. In April, 1923, as progressed, with Mercury parallel Venus p, Sun sextile Uranus p and trine Neptune r, Uranus opposition Neptune p, Neptune semi-square Moon r, and Uranus sesqui-square Moon r, had shingles.

SINUS TROUBLE (NASAL). Birth-chart constants: An upper-octave planet prominent, Saturn or Jupiter afflicted, and commonly a planet in either Aries or Scorpio.

Progressed constants: An aspect involving an upper-octave planet, an aspect involving Jupiter or Saturn, and an aspect involving the planet in Scorpio or Aries, at the same time there are severe rallying forces.

Stellar Treatment:- In addition to applying the planetary energy of its antidote to the zone occupied by the upper-octave planet, and to the zone occupied by Jupiter or Saturn and the planet in Scorpio or Aries, the diet should be such as to alkalize the blood stream and to correct the hypersensitivity. To do the latter it should contain calcium, vitamin B-1, and vitamin D. If Saturn is prominent and afflicted, the diet should contain variety in mineral salts, vitamins and proteins. If Jupiter is prominent and afflicted, care should be taken with sugar and fat, and the diet should contain sulphur. Nervous tension should be avoided, and calm and harmonious thinking cultivated.

Example: Chart 307. Male, June 7, 1903, 4:43 p.m. 87:50W. 42N. Sun conjunction Pluto and opposition Uranus, Moon in Scorpio, Jupiter square Sun. May 8, 1929, as progressed, with Mercury conjunction Pluto p, M.C. sextile Moon r in Scorpio and opposition Jupiter r, and Saturn semi-square Uranus p, developed sinus trouble.

SLEEPING SICKNESS. Birth-chart constants: Neptune prominent and afflicted.

Progressed constants: An aspect involving Neptune and an aspect involving Mars.

Stellar Treatment: This unusual malady should not be confused with the sleeping sickness of Africa which is due to the parasite trypanosome. Yet that the sleeping sickness of America is induced by the invasion of some microorganism is indicated by the fact that when it occurs a progressed aspect involving Mars is present. This aspect also reduces the efficiency of the human chemical fighting apparatus. The diet should contain calcium, vitamin B-1, vitamin A, vitamin C, variety of mineral salts, especially iron, and variety of, but not too much, protein. Sun planetary energy should be applied to the zone occupied by Neptune, and solar electromagnetism should be applied to the patient to increase the vitality.

Example: Chart 308. Male, May 17, 1913, 9:00 p.m. 98:30W. 45:30N. Neptune in an angle opposition Jupiter and square Venus. February 1, 1925, as progressed, with Mercury parallel Neptune p, Mars conjunction Jupiter p, and Sun conjunction Saturn p, became ill; went to sleep February 7, and slept 21 days.

SMALL POX. Birth-chart constants: Mars and Venus prominent and afflicted.

Progressed constants: An aspect involving Mars and an aspect involving Venus at the same time there are severe rallying forces.

Stellar Treatment: This highly contagious disease is typical of Mars, and

the more prominent Mars is the more likelihood of contracting it. Unsanitary conditions contribute to its power to afflict. To the extent the blood stream contains toxins, and there is too little adrenaline and cortin is it easy for the invading forces to gain a foothold. Few have a blood stream sufficiently pure, and the adrenal glands vigorous enough, to be free from risk through exposure to the disease. The food should not be stimulating, but productive of an alkaline reaction. Proteins and rich foods should be avoided. Fruit juices and vegetable juices are recommended. Moon planetary energy should be applied to the zone occupied by Mars, and Saturn planetary energy to the zone mapped by Venus. Lunar electromagnetic energy may be used to reduce the fever. As excitement and activity increase the toxic condition of the blood stream, and thus give adrenaline and cortin additional work, they should be avoided. Good nursing is unusually important.

Example: Chart 7287. Male, October 19, 1914 6:20 a.m. 117W. 47N. Mars in an angle conjunction Moon and Mercury. Venus semi-square Sun. In October, 1925, as progressed, with Mercury conjunction Mars p, M.C. square Mars r, Sun semi-sextile Venus r, and Venus semi-square Sun r, had small pox.

SPINAL CURVATURE. Birth-chart constants: The Sun afflicted by Saturn or a planet in Leo afflicted by Saturn.

Progressed constants: An affliction involving the Sun or an affliction involving a planet in Leo.

Stellar Treatment: Treatment depends on the cause. When the back is very weak a support may be needed part of the day. In some forms much may be done by lengthening a leg by a high-heeled boot, or by similar corrective measures. If the curvature is due to rickets, the treatment should include that for rickets, if due to tuberculosis or cancer, the treatment should include treatment of such disease. But in addition, the zone occupied by Saturn should be given Venus planetary energy, the Sun if afflicted by Saturn should be given Jupiter planetary energy and if there is a planet in Leo afflicted by Saturn, the zone it occupies should be given the appropriate planetary antidote. The diet should contain ample variety of vitamins, mineral salts and proteins.

Example: Chart 7288. Female, December 15, 1920, 2:00 p.m. 118:15W. 34N. Neptune in Leo opposition Moon and Mars. Sun square Saturn. At, or soon after birth, as progressed, with Saturn square Sun r, and Mars opposition Neptune r in Leo, had spinal curvature; grew up to be a hunchback.

SPINAL MENINGITIS. Birth-chart constants: An upper-octave planet prominent, Sun afflicted, and Mars afflicted or a planet in Aries afflicted.

Progressed constants: An aspect involving an upper-octave planet, an aspect involving the Sun, and an aspect involving Mars or a planet in Aries, at the same time there are severe rallying forces.

Stellar Treatment: Meningitis may follow infectious fever, blood poisoning, or injuries to the skull which become infected. The ear in particular is a common site of its origin following its inflammation or the decay of the adjacent bone. From the brain the infection may spread to the meninges of the spinal cord. Rest and confinement to bed are essential. An ice bag on the head and tepid baths may be used to reduce the fever, together with lunar electromagnetic energy. Penicillin may be used by a doctor to destroy the infection. Diet should be fruit juices and vegetable juices to alkalize the blood stream. Vitamin B-1, vitamin D and calcium are needed in the diet. The zone occupied by Mars should be given this planet's antidote planetary energy, and its antidote planetary energy should be applied to the zone occupied by the significant upper-octave planet.

Example: Chart 310. Male, June 6, 1898, 5:15 p.m. 94:40W. 39N. Pluto and Uranus in angles, Mars in Aries square Moon and semi-square Sun. In December, 1900, as progressed, with M.C. trine Mars r in Aries, Mars inconjunct Uranus r and semi-square Sun r, had spinal meningitis.

SPLEEN TROUBLE. Birth-chart constants: An affliction to either Sun or Saturn, often Sun afflicting Saturn.

Progressed constants: An affliction involving Sun or Saturn, or afflictions involving both.

Stellar Treatment: The zone occupied by Saturn should be given the planetary energy of Venus and the zone occupied by the Sun should be given the planetary energy of Jupiter. The spleen should be thoroughly and repeatedly charged with solar electromagnetic energy, taking pains to seal it in with a motion of the hand to prevent it oozing out before used. As there is usually a contributing disease of some recognized type, this should receive the treatment advocated for it.

Example: Chart 313. Female, January 23, 1891, 9:00 p.m. 17E. 49N. Sun sesqui-square Saturn, square Uranus, and semi-square Venus. Saturn conjunction Asc. and opposition Mars. In April, 1921, as progressed, with Mars parallel Saturn p, Asc. semi-sextile Saturn r, and Sun square Neptune r, developed hardening of the spleen.

SPRAIN. Birth-chart constants: Mars prominent and severely afflicted.

Progressed constants: An aspect involving Mars at the same time there are severe rallying forces *Stellar Treatment:* When the sudden overstretching of a muscle or ligament stops before actually tearing it is called a strain; when there is tearing it is called a sprain. In either case first-aid treatment consists of rest and cold applications and a firm, smooth bandage. Later, heat may be applied to relieve the pain, alternating with lunar electromagnetic energy. Movements that cause dragging on the injured muscle should be avoided, but the joint should be moved gently from the first, and after a few days through its whole range, to prevent the scar tissue forming adhesions. In a few days if there is no acute inflammation massaging will prove beneficial. Electromagnetic passes over the injured part should then also be used. Moon planetary energy should be applied to the zone occupied by Mars.

Example: Chart 7289. Male, April 13, 1895, 2:00 p.m. LMT. 61:18 W. 10:27N. Mars sextile Sun and opposition Moon. In September, 1908, as progressed, with Mars conjunction Jupiter p, trine Saturn p in Scorpio, and sesqui-square Uranus p in Scorpio, sprain caused swollen and painful testicles.

ST. VITUS'S DANCE. Birth-chart constants: An aspect between Mercury and Uranus, usually an affliction.

Progressed constants: An aspect involving Uranus at the same time there are severe rallying forces.

Stellar Treatment: There is a conflict of mental factors which should be reconciled. Psychoanalysis may be used to reveal the conflict, and to point the way to the reconciliation. Calm and unhurried thinking of the Jupiter type should be cultivated. All stress on the nervous system should be avoided. Relaxation through mild recreation is advisable. The diet should contain calcium, vitamin B-1 and vitamin D. The zones occupied by Mercury and Uranus should be given Jupiter planetary energy. Thought treatment and suggestion may be used to reduce the nervous tension and reharmonize the conflicting mental factors. Everything tending toward excitement should be avoided.

Example: Chart 7290. Female, April 21, 1917, 10:45 a.m. 74:11W. 40:44N.

Mercury square Uranus. In June, 1922, as progressed, with Mars sextile Uranus p, and square Saturn p, developed St. Vitus Dance.

STUTTERING. Birth-chart constants: Uranus prominent and Mercury afflicted.

Progressed constants: An aspect involving Mercury at the same time there are severe rallying forces, especially if Uranus is involved.

Stellar Treatment: Stuttering is due to anxiety hysteria. When the conflicting mental factors are reconciled the stuttering will cease. Psychoanalysis may be used to reveal the cause of the anxiety, and suggestion and thought treatment to alleviate it. Voice exercises and breathing exercises may help through giving the individual confidence. Jupiter planetary energy should be applied to the zones occupied by Mercury and Uranus.

Example: Chart 7292. Male, March 25, 1925, 10:05 a.m. EST. 83:33W. 41:39N. Uranus in an angle, Mercury square Jupiter. He was in the habit of using both hands with equal facility. In September, 1931, as progressed, with Mercury sextile M.C. p, Uranus semi-sextile Mercury r, and Sun square Pluto p, he started going to school, and there was coerced (Pluto) into using only his right hand. He then commenced to stutter.

SUICIDE. Birth-chart constants: Mars afflicted and a planet in the twelfth house, or the ruler of the twelfth house heavily afflicted.

Progressed constants: An aspect to the ruler of the twelfth house at the same time there are severe rallying forces.

Stellar Treatment: Through education in the true purpose of life desire should be built up in the individual with a predisposition toward suicide to see life through regardless of its difficulties. He should be made to realize he cannot escape difficulty by running away from physical life. Courage should be developed to face any situation, to place trust in higher powers, and he should be convinced he is a significant factor in the universal scheme. He should cultivate Jupiter type thinking. Suggestion and the thought treatment should have. for object reconciling the mental conflicts which tend toward despondency or impulse to violence. Moon planetary energy should be applied to the zone occupied by Mars, and its planetary antidote should be given the zone of the afflicted ruler of the twelfth house.

Example: Chart 7293. Male, June 22, 1884, 7:30 a.m. 86:12W. 39:47N. Mercury and the Moon conjunction Saturn, Mercury and Saturn square Mars, Moon co-ruler of twelfth. On July 14, 1945, as progressed, with Saturn conjunction Moon r, ruler of twelfth, Mars trine Saturn r and sesqui-square Pluto r, Asc. and Mercury conjunction Uranus p, and M.C. square Uranus p, deliberately shot himself through the head with a revolver and died.

SUNSTROKE (HEATSTROKE). Birth-chart constants: Watery planets, chiefly Neptune or the Moon, prominent and afflicted, often an affliction in Aries.

Progressed constants: An aspect, usually an affliction, involving the Sun, and an aspect, usually an affliction, involving Mars.

Stellar Treatment: The same conditions develop in furnace workers and those in glass works, laundries, etc., where the heat is great, as with those who suffer from the direct rays of the Sun. The salt balance should be reestablished by the individual drinking water containing some salt. He should be taken into the shade or as cool a place as possible and head and body soused with cold water. If, as usual, the temperature is high, ice packs or bath. together with lunar electromagnetic energy, should be used to lower it. If, instead, the skin is cool and pale and the temperature subnormal, a hot bath, or

hot water bottles, together with solar electromagnetic energy, should be used after he has been put to bed. Fruit juices and vegetable juices should constitute most of the diet. The throbbing in the head may be relieved by cold packs and electromagnetic passes from the top of the head downward.

Example: Chart 309. Male, April 17, 1873, 4:15 a.m. 122W. 38N. Sun conjunction Neptune in an angle in Aries, and both square Uranus. Moon square Asc. In August, 1898, as progressed, with Sun square Jupiter r, and Mars square Uranus r and square Saturn r, suffered sun stroke.

SYPHILIS. Birth-chart constants: Venus or Mars, usually both, afflicted, and especially an affliction between Mars and Venus.

Progressed constants: An aspect, usually an affliction, involving Mars.

Stellar Treatment: The medical profession treats this disease successfully with penicillin. Highly seasoned and spicy foods should be avoided, also strain and excitement. There should be vitamin A, vitamin E, iodine, copper, vitamin B-1, vitamin C, iron and variety of, but not too much, protein. The utmost in cleanliness should be observed. The zone occupied by Venus should be given Saturn planetary energy, the zone occupied by Mars should be given Moon planetary energy, there should be exercise enough to insure elimination, and electromagnetic energy should be employed to build up the vitality.

Example: Chart 312. Male, January 18, 1889 11:50 p.m. 99:50W. 47N. Mars conjunction Venus and sesqui-square Uranus and Asc. Venus semi-square Sun. In June, 1919, as progressed, with Asc. sesqui-square Mars p and inconjunct Venus p, Uranus sesqui-square Mars r, Mars sesqui-square Saturn p, and Sun square Neptune r, contracted syphilis.

THROMBOSIS. Birth-chart constants: Venus or Jupiter afflicted, and Pluto. Neptune or Saturn prominent and afflicted.

Progressed constants: An affliction involving Venus or Jupiter at the same time there is an aspect involving Pluto, Neptune or Saturn, and an aspect involving Mars.

Stellar Treatment: Venus rules the veins and the venous blood. Jupiter rules the arteries and the arterial blood. The cause of thrombosis (plugging of a blood vessel) is a marked change in the circulation or an injury to the walls of the blood vessels. An affliction to Pluto or Neptune decreases the adrenaline and cortin supply, an affliction to Saturn exhausts the adrenaline supply; and especially if there is a depleted condition, lack of adrenaline may slow down the circulation markedly. But under the influence of the progressed Mars aspect there may be bacterial infection, temporary irritation and excitement, a toxic condition, or a spurt of exertion, which releases adrenaline. Adrenaline, as well as certain bacteria, has a tendency to cause blood to clot; and released at a time when the circulation markedly alters, a blood clot may form either in the veins or in the arteries. This clot may cut off nutriment from a given area of the body. Lodging in the heart it may cause death, in the brain some degree of paralysis may result. Through diet and application of Sun planetary energy to the zones occupied by Venus and Pluto, Neptune or Saturn, the vitality should be increased. Mercury energy should be given the zone occupied by Jupiter, and Moon energy to the zone occupied by Mars.

Example: Chart 7195. Male, March 23, 1898, 7:54 a.m. 87:39W. 41:52N. Venus opposition Jupiter, Pluto and Neptune opposition Saturn. June 3, 1946, as progressed, with Venus opposition Saturn p, Sun sesqui-square Jupiter r, Mars square Asc. p, and Asc. square Mercury r, was taken to hospital where later

little finger (Venus p in Gemini) on right hand was amputated. Depletion and low blood pressure preceded thrombosis which blocked blood supply to arm, causing little finger to turn black.

TICK FEVER. Birth-chart constants: Mars prominent and Neptune prominent and afflicted.

Progressed constants: An aspect involving Mars and an aspect involving Neptune, at the same time there are severe rallying forces.

Stellar Treatment: The micro-organism which causes this disease is carried by ticks or other parasitic insects. This virulent disease is now successfully treated in hospitals with streptomycin. The fever, which runs very high and then suddenly falls, and continues to repeat this process, may be relieved by ice packs, sponging in tepid water, and lunar electromagnetic energy. As in other infectious fevers, complete rest in bed is advocated, and a diet to alkalize the blood stream, chiefly fruit and vegetable juices. The zone occupied by Neptune should be given Sun planetary energy, and the zone occupied by Mars should be given Moon planetary energy. The vitality should be reinforced by electromagnetic passes. Good nursing is important.

Example: Chart 7294. Male, July 29, 1908, 10:00 p.m. 90:40W. 40:27N. Neptune in an angle conjunction Mercury and square Saturn and the Asc. Mars conjunction Sun and Moon, and inconjunct Uranus. On July 15, 1933, as progressed, with Sun conjunction Mars p, Venus conjunction Neptune p, and Mars and Sun semi-square Neptune r, was bit by tick and a few days later developed tick fever.

TONSIL TROUBLE. Birth-chart constants: Pluto, Neptune or Saturn prominent at the same time either Venus or a planet in Taurus is afflicted.

Progressed constants: An aspect involving Mars, an aspect involving Pluto, Neptune or Saturn, at the same time there is an aspect involving Venus or a planet in Taurus.

Stellar Treatment: The influence of Pluto and Neptune depress the manufacture of adrenaline and cortin, and the influence of Saturn tends to exhaust the adrenaline supply. The blood stream becomes acid, and under the Mars influence adrenaline and cortin are exhausted, and inflammation or infection develops. It attacks the tonsils because of the Venus or planet in Taurus affliction. The blood stream should be alkalized with a diet chiefly of fruits and vegetables. The diet should contain vitamin A, vitamin E, iodine, copper, iron, calcium, vitamin C and vitamin B-1. Sun planetary energy should be applied to the zone occupied by the significant negative planet and to the zone occupied by Venus. Its antidote planetary energy should be applied to the zone occupied by any planet in Taurus. Electromagnetic energy should be applied to the region of the tonsils.

Example: Chart 7295. Female, April 28, 1870, noon. 84:30W. 42:30N. Saturn square Venus, Sun in Taurus conjunction Pluto and Mars. Neptune conjunction Moon. Had much trouble with tonsils until they were removed in July, 1918, as progressed, with Mars semi-square Uranus r, Venus sesqui-square Saturn r, and Pluto in Taurus sextile Uranus r.

TOOTH TROUBLE. Birth-chart constants: Saturn prominent and afflicted, and an upper-octave planet prominent.

Progressed constants: An aspect involving Saturn and an aspect involving Mercury or an upper-octave planet at the same time there are severe rallying forces.

Stellar Treatment: The normal action of the parathyroid glands is essential to maintaining good teeth. Therefore the diet should contain calcium, vitamin

B-1 and vitamin D. Nervous stress and strain should be avoided, and harmonious Jupiter thinking cultivated. Also, to maintain good teeth, there should be variety of vitamins, variety of minerals and variety of proteins. Poor teeth indicate either something is lacking in the diet, or that it cannot be properly handled. Venus planetary energy should be applied to the zone occupied by Saturn, and its antidote planetary energy should be applied to the zone occupied by Mercury or the significant upper-octave planet. Worry, fear and anxiety contribute to poor teeth by interfering with the action of the Saturn growth hormone of the front pituitary gland.

Example: Chart 7296. Female, September 27, 1903, 9:45 p.m. 71:25W. 41:49N. Saturn trine Sun and sesqui-square Venus. Neptune in an angle square Sun. Had neuralgia headaches from bad teeth until in March, 1931, as progressed, with Saturn sesqui-square Venus r, trine Sun r and Mars r, Mars conjunction Uranus p, Mercury semi-square Moon r, and Venus square Pluto r, had all her upper teeth removed.

TRENCH MOUTH. Birth-chart constants: Saturn and Mars prominent and afflicted.

Progressed constants: An aspect involving Saturn and an aspect involving Mars, at the same time there are severe rallying forces.

Stellar Treatment: This disease is secondary to infection of the teeth and gums by a bacillus. Doctors advise massaging the gums with sodium perborate and gargling the throat with antiseptic solution. The diet should be such as to alkalinize the blood stream and to strengthen the production of adrenaline. It should contain vitamin A, vitamin B-1, vitamin C, iron, and a wide variety of other vitamins, mineral salts and proteins. The zone occupied by Mars should be given Moon planetary energy, and the zone occupied by Saturn should be given Venus planetary energy.

Example: Chart 7297. Female, July 3, 1903, 11:45 p.m. 87:39W. 41:52N. Saturn trine Moon, semi-square Jupiter and semi-square Uranus. Mars square Sun and opposition Asc. On May 4, 1940, as progressed, with M.C. trine Mars r, Jupiter sesqui-square Moon r and semi-square Saturn r, and Saturn sesqui-square Mercury r, developed trench mouth.

TUBERCULOSIS. Birth-chart constants: Saturn, Neptune, Jupiter and Pluto prominent and usually afflicted.

Progressed constants: An aspect involving Saturn, an aspect involving Jupiter, an aspect involving Neptune, and often an aspect involving Pluto, at the same time there are severe rallying forces.

Stellar Treatment: The analysis of the charts of 100 people progressed to the time tuberculosis developed, and the details of precautionary measures and treatment are given in the reference book, *Body Disease And Its Stellar Treatment*.¹ Even when the disease is in an advanced stage, other than taking care of the cavities, if these have developed, the outstanding problem presented in tuberculosis infection is to build up a physical vitality so vigorous that the body can heal the attacked tissues and prevent further infection. Fresh air, sunlight, moderate exercise, rest from hard work, and nourishing foods are important. The food should contain a wide variety of vitamins, mineral salts and proteins. The thinking is very important also, and the type should be cultivated which will give greater activity to Sun thought-cells. Negative thinking should be avoided. The zones of the constants should be treated with the proper planetary antidotes, and solar electromagnetic energy should be applied to build up positiveness and vitality.

Example: Chart 4447. Male, July 17, 1863, 0:10 a.m. 122W. 38N. Mercury

square Saturn, Sun square Jupiter, Mercury square Neptune, Pluto conjunction Asc. In July, 1888, as progressed, with Sun semi-square Saturn p, Sun sextile Jupiter r, Mars inconjunct Neptune p, and Pluto conjunction Asc. r, developed tuberculosis.

TUMOR (BENIGN). Birth-chart constants: Jupiter, Saturn, Neptune and the Moon prominent and often afflicted.

Progressed constants: A progressed aspect involving Jupiter and a progressed aspect involving Saturn.

Stellar Treatment: Although the progressed aspects at the time are usually more severe when cancer develops, especially the one involving Saturn, it is difficult from the astrological constants to determine whether the predisposition is merely toward benign growths or toward those more malignant. The constants for tumors of all kinds indicate an acid blood stream, and one filled with toxins. The Jupiter influence tends to cause the blood stream to be filled with incompletely burned fuel, and an excess of fat which may be deposited as a fatty tumor. Saturn rules the growth hormone of the front pituitary gland, and when afflicted may promote abnormal growths. The diet should be such as to alkalize the blood stream and furnish it with not too rich foods, but those containing a wide variety of vitamins, mineral salts and proteins. The thinking should avoid negative conditions and emotional discords, and should include harmonious Sun type thinking. The energy of its planetary antidote should be applied to the zone occupied by each birth-chart constant.

Example: Chart 7289. Female, June 2, 1910, 1:15 a.m. 117:05W. 33:07N. Jupiter in an angle opposition Asc., Saturn in an angle square Moon, Neptune in an angle opposition Uranus. May 20, 1941, as progressed, with Venus trine Jupiter r, semi-sextile Saturn p, and semi-square Mars r, and with M.C. square Saturn r, a benign tumor was removed surgically.

TYPHOID FEVER. Birth-chart Constants: Mars rather severely afflicted. Saturn, Neptune or Pluto prominent increases the predisposition.

Progressed constants: An aspect involving Mars, an aspect involving Mercury or a planet in Virgo, and usually an aspect involving Saturn, at the same time there are discordant rallying forces.

Stellar Treatment: The analysis of the charts of 100 people progressed to the time they had typhoid fever, and the details of treatment and precautionary measures, are given in the reference book, *Body Disease And Its Stellar Treatment*.¹ As the blood stream is already filled with toxic acids, it is obvious that the diet should tend toward neutralizing this condition by tending toward the alkaline. Any physical exercise results in acid products of combustion entering the blood stream, therefore the patient should be kept lying down, but turned from side to side on his back every few hours to prevent the development of bed sores. The mouth should be cleansed frequently with water, boric glycerin or listerine. Water should be taken copiously. Fruit and vegetable juices should be the chief diet until the patient is strong enough to handle foods more substantial. Then, to strengthen the adrenal glands, it should contain vitamin A, vitamin B-1, vitamin C, iron and variety of proteins, but little meat. The zone occupied by Mercury should receive Jupiter planetary energy, the zone occupied by the significant negative planet, and the zone occupied by any planet in Virgo, should receive the planetary energy of the appropriate antidote. Good nursing is important.

Example: Chart 3239. Male, February 7, 1873, 3:47 a.m. 84:50W. 38:45N. Mars in an angle square Neptune, Pluto square Sun. In August, 1890, as pro-

gressed, with Sun trine Mars r, Mercury semi-square Neptune p, and Saturn inconjunct Jupiter r, had typhoid fever.

ULCER. Birth-chart constants: Mars and Uranus afflicted and Saturn, Neptune or Pluto prominent and usually afflicted.

Progressed constants: An aspect involving Mars, an aspect involving Uranus, and an aspect involving Saturn, Neptune or Pluto, at the same time there are severe rallying forces.

Stellar Treatment: Ulcers fall into three main groups, those due to some kind of irritation, those due to micro-organisms, and those due to malignant new growths. In either group nutritional deficiencies contribute to keep it going, and usually contribute to its origin. Those due to micro-organisms are now successfully treated with penicillin. The floor of the ulcer should be kept antiseptic. But after the micro-organism has been eradicated by the penicillin, as with the other two groups, there is need to build new and healthy tissue. For this purpose the food should be ample and nourishing, but with plenty of vegetables and fruits to alkalize the blood stream. It should contain variety of vitamins, mineral salts and proteins, especially vitamin A, vitamin B-1, vitamin C, and iron. The vitality should be increased through giving the patient solar electromagnetic energy. Moon planetary energy should be applied to the zone occupied by Mars, Jupiter planetary energy should be applied to the zone occupied by Uranus, and the planetary energy of its antidote should be applied to the zone occupied by the significant negative planet.

Example: Chart 7131. Male, December 12, 1882, 5:55 a.m. 94W. 41:37N. Mars in an angle square Uranus, Saturn inconjunct Sun, Neptune inconjunct Mercury, Pluto sesqui-square Moon. July 22, 1945, as progressed, with Mars sesqui-square Uranus r, Sun inconjunct Uranus r, Mercury sesqui-square Uranus r, and Asc. trine Pluto r, started to develop a serious ulcer on his right thigh.

UNDULANT FEVER. Birth-chart constants: Mars and Moon prominent and afflicted.

Progressed constants: An aspect involving Mars and a progressed aspect involving the Moon, at the same time there are serious rallying forces.

Stellar Treatment: As this disease is caused by *Bacillus abortus*, and the similar disease, Malta Fever, is caused by a germ, *Alcaligenes melitensis*, both found in goat's milk, precautionary action consists of either refraining from goat milk, or boiling it for 20 minutes to destroy the infection. At the onset the fever gets a little higher each day for about seven days, then gradually subsides to normal, but after two or three weeks the process is repeated, and thus recurs for a few months up to two years. The medical profession now treats this disease by administering streptomycin and sulfadiazine simultaneously. Otherwise, it should be treated as are other fevers. There should be rest, and sponging and lunar electromagnetic energy to keep the fever down. The diet should be such as to alkalize the blood stream, and to reinforce the adrenaline glands. It should contain vitamin A, vitamin B-1, vitamin C, iron and variety of proteins, but not too much protein. The zone occupied by Mars should be given Moon planetary energy, and the zone occupied by the Moon should be given Mars planetary energy.

Example: Chart 7299. Male, February 14, 1897, 1:30 a.m. EST. 84:33W. 43N. Mars in an angle conjunction Neptune and Pluto and sesqui-square Mercury. Moon square Venus and sesqui-square Uranus. In August, 1935, as progressed, with Mars sextile Jupiter p, and inconjunct Saturn p, and Jupiter semi-square Moon r, had undulant fever.

UTERUS TROUBLE. Birth-chart constants: A planet afflicted in Scorpio, or an affliction to Mars or Venus, especially if the Moon is afflicted.

Progressed constants: An aspect, usually an affliction, involving a planet in Scorpio, or involving Mars or Venus, especially if the Moon is also involved in an aspect.

Stellar Treatment: The Moon has considerable influence over the feminine cycles through its influence on a back pituitary hormone which causes the cavity where the follicle is ruptured when the egg matures to be transformed into the corpus luteum which secretes another hormone called progesterin. Progesterin has successfully been used to overcome sterility in women when due to insufficient development of the organs involved. It prepares the lining of the womb for the fertilized egg. If the Moon is afflicted, the zone it occupies should be given Mars planetary energy. Usually difficulty with the uterus is due to the thought-cells mapped by Venus or Mars. If there is a planet in Scorpio, especially if afflicted, any difficulty is more likely to affect the uterus than it otherwise would. Electromagnetic energy should be applied to the region. The planetary energy of its antidote should be applied to the zone occupied by any planet in Scorpio, Saturn planetary energy should be applied to the zone occupied by Venus, and Moon planetary energy should be applied to the zone occupied by Mars. Vitamin A, vitamin E, and iron are especially important. Insufficiency of one of these will seriously affect menstruation. The diet should also contain iodine, copper, vitamin B-1, vitamin C and variety of protein.

Example: Chart 1727. Female, March 26, 1884, 12:40 p.m. 71:53W. 42:03N. Sun, Moon and Mercury semi-square Venus, Mars conjunction Asc., Moon opposition Uranus. May 20, 1905, as progressed, with Asc. square Venus r, Mars semi-square Uranus p, and Pluto sextile Moon r, underwent operation to correct inverted uterus.

VARICOSE VEINS. Birth-chart constants: Venus afflicted.

Progressed constants: An aspect involving Venus at the same time there are severe rallying forces, especially involving Mars.

Stellar Treatment: This difficulty is often brought on through the strain of constant standing, or in women through pregnancy. The afflictions involving Venus cause the irritants in the blood stream to weaken the walls of the veins. The chemical imbalance encouraged by Venus is due to imperfect functioning of the thyroid and gonad glands. But very frequently the other planets afflicted encourage toxins to accumulate in the blood which, under the progressed aspect involving Venus, cause the veins to become dilated and tortuous. The diet should favor Venus, including vitamin A, vitamin E, iodine and copper. Wheat germ meal is an excellent source of vitamin E. The diet should also be such as to alkalize the blood stream and free it from irritants. Emotional stresses should be avoided, and a poised attitude cultivated. Saturn planetary energy should be given the zone occupied by Venus, and each group of thought-cells contributing to the toxic blood stream should receive its appropriate planetary energy antidote.

Example: Chart 314. Female, April 23, 1884, 10:40 a.m. 123W. 44:30N. Venus semi-square Sun and square Uranus. In July, 1926, as progressed, with Venus sextile Mercury r and sextile Uranus r with Sun conjunction Saturn p, and with Mars square Pluto r, varicose veins caused severe trouble.

WHOOPIING COUGH. Birth-chart constants: Pluto, Neptune or Saturn prominent, and Mercury or a planet in Gemini afflicted.

Progressed constants: An aspect involving Mars, an aspect involving

Mercury or the planet in Gemini, and usually an aspect involving Saturn, Neptune or Pluto.

Stellar Treatment: This is a contagious disease more readily contracted in the presence of a common cold. The Mercury, Pluto or Neptune aspect tends to cause deficiency of parathyrin, resulting in hypersensitivity of the membranes of the throat and bronchi. The Mars influence tends to exhaust both adrenaline and cortin, the Saturn influence exhausts adrenaline, Pluto and Neptune depress the manufacture of adrenaline and cortin. Infection is thus facilitated. There is an accumulation of tough, tenacious mucus in the throat which causes the cough. This may be severe enough either to cause collapse of some portion of the lungs, or the dilation of the air cells accompanied by shortness of breath. The diet should alkalize the blood stream. For this purpose fruit and vegetable juices are excellent. To combat the hypersensitivity of the membranes the diet should contain vitamin B-1, vitamin D and calcium. The zone of the significant negative planet should be given the planetary energy of its antidote, the zone occupied by Mercury should be given Jupiter planetary energy, the zone occupied by the planet in Gemini should be given the planetary energy of its antidote, and the zone occupied by Mars should be given Moon planetary energy.

Example: Chart 7300. Male, November 19, 1928, 6:16 p.m. 118:15W. 34N. Mercury square Moon, Asc. in Gemini opposition Saturn, Pluto trine Mercury, Neptune square Sun. July 4, 1932, as progressed, with Pluto trine Mercury r, Sun square Neptune r, and Venus opposition Mars p, developed whooping cough.

YELLOW FEVER. Birth-chart constants: Mars afflicted and prominent, and Saturn, Neptune or Pluto prominent.

Progressed constants: An affliction involving Mars at the same time Saturn, Neptune or Pluto are involved in an aspect.

Stellar Treatment: This disease is caused by the invasion of the blood stream by a virus through the bite of the *Stegomyia* mosquito. Cold sponging, ice packs and lunar electromagnetic energy should be used to keep the fever down. To alkalize the blood stream, the diet should be chiefly fruit and vegetable juices, with vitamin B-1, vitamin C and iron to assist the adrenal glands produce adrenaline and cortin to fight the infection. Through positive Sun thinking, through the application of electromagnetic energy, and through the application of Sun planetary energy to the zone occupied by the significant negative planet, every effort should be made to build up the vitality and help the body chemicals overcome the invading organism. The patient should rest, and be kept free from excitement and stimulating food.

Example: Chart 315. Male, February 20, 1875, noon. 82:45W. 40:45N. Mars square both Sun and Moon, Neptune semi-square Mercury, Pluto square Saturn. In August, 1904, as progressed, with Mercury square Mars r, Saturn square Pluto p, Jupiter opposition Neptune p, and Mars sextile Saturn r, had yellow fever.

1. Out of print. See *Astrology: 30 Years Research*.

Appendix _____**Study Questions****Stellar Anatomy (Serial No. 197)**

1. In the astral body what corresponds: to the neutrons of the atoms of the physical body?
2. To the positrons of the atoms of the physical body?
3. To the electrons of the atoms of the physical body?
4. To the protoplasm of the physical body?
5. From what are the stellar cells derived?
6. What maps the 12 zones of the astral body?
7. What maps the 12 compartments of the astral body?
8. What is the food of the astral body?
9. What determines the department into which the astral food moves?
10. What maps each receiving set in the astral body?
11. What maps the aerials of the astral body?
12. How many tones can each aerial within the astral body pick up?
13. What are the common thought-cells?
14. Through what principle are the common thought-cells influenced by the energy picked up by the aerials connecting dynamic stellar structures?
15. What maps the following: the stellar ground wire; the stellar amplifier?
16. What relation have temporary stellar aerials to events?
17. Events of consequence take place only while what aspects are within one degree of perfect?
18. Define the following: astrodyne; harmodyne; discordyne.
What is the advantage of knowing the following:
19. Number of astrodynes a planet has?
20. Number of astrodynes a house has?
21. Number of astrodynes an aspect has?
22. Number of astrodynes a sign has?

Basis Of Stellar Diagnosis (Serial No. 198)

1. With what is disease synonymous?
2. In addition to considering their harmony or discord, what else must be considered in determining the condition of the stellar cells?
3. How many zones must be considered in matters of health?
4. What zones should receive special consideration in diagnosis?

5. Is any impossibility involved in changing the type of stellar structure occupying any compartment of the astral body?
6. What maps those regions of the physical body which are particularly susceptible to disease?
7. What should be the basis of stellar diagnosis?
8. What planet rules the positive electrical energies of the body?
9. What depends on the power and harmony of these electrical energies?
10. What planet governs the constitutional magnetism?
11. What other factors contribute to the harmony or discord of the constitutional magnetism?
12. Upon what two factors depends the ability to survive?
13. How does Mercury affect the electro-magnetic energies which flow over the nerves?
14. Why is the first house important in health?
15. Why is the sixth house important in health?
16. What is a rallying force?
17. How does a rallying force reach a compartment of the astral body not directly influenced by one of the terminals of its progressed aspect?
18. What is the only avenue through which astral energies can influence physical substance?
19. Upon what depends the importance of the event a group of thought-cells is able to bring into life?
20. Other than indicating the zones afflicted by the disease are signs commonly significant as constants of disease?
21. What in the chart indicates the predisposition which is most likely to develop into its characteristic disease?
22. What is the order of importance of the five factors that should receive special attention in diagnosing health difficulties?
23. In addition to the constants of the disease progressed aspects involving the rulers of what two houses are always present at the time the disease develops?
24. Why is it valuable to know the following number of discordynes a planet has; and the number of harmodynes a planet has?

Principles Of Stellar Healing (Serial No. 199)

1. Upon what depends the success of all non physical methods of treatment?
2. What three valuable factors not employed in other methods of healing by non-physical means does stellar healing embrace?
3. How much intelligence have the stellar cells and stellar structures of the soul?
4. By what term does science now recognize the non-physical power by which stellar cells not only influence health and disease but all other events that enter the life?
5. Is man influenced most by his inner-plane environment or by his physical environment?
6. Are health conditions the only ills which can be successfully healed by stellar treatment?
7. If such treatment is to prove successful how must the stellar cells be changed?
8. How much energy must be supplied the changed thought-cells?
9. What must be the relation of physical facilities to the extra-physical power needed by the thought-cells to complete the healing?

10. If there is lack of vitamins and other elements in the food can stellar healing bring abundant health?
11. In spite of any possible diet and any possible other physical facilities afforded by environment, if the individual does not change his thinking, is he apt to continue in good health?
12. With what astrological indications does the commencement of any disease not present at birth always coincide?
13. Why are the thought-cells mapped by the Sun, Moon and Mercury in the birth-chart so important?
14. With what energies of the body are the Sun thought-cells in constant contact?
15. With what energies of the body are the Moon thought-cells in constant contact?
16. With what energies of the body are the Mercury thought-cells in constant contact?
17. Why is it good practice for the stellar healer to give his patient a general electro-magnetic treatment as a prelude to more specific treatment with selected planetary energies?
18. In the special treatment, thoughts selected for this purpose are delivered to the thought-cells along with what other energies?
19. What physical structures and organs of the body are ruled by each of the twelve zodiacal signs?
20. What part of the physical organism does each of the ten planets rule? What disease conditions are characteristic of the following planets:
- 21 Mars.
22. Saturn.
23. What hormone influenced by Neptune and Pluto tends to suppress and counteract the influence of cortin (and we know now also adrenaline)?
24. What planet's influence tends to perversions, to the use of narcotics and opiates, and is responsible for some obsession?
25. What other planet increases sensitiveness to people's thoughts, and may tend toward irresponsible mediumship and obsession?

Technique Of Stellar Healing (Serial No. 200)

1. In the Bible story related in Mark 5:27-32, what indicates that the woman was not healed merely by faith?
2. What command relative to healing the sick is Jesus reported to have given his 12 disciples?
3. What distinguished true Christians from pretenders in the early days of Christianity?
4. In addition to teaching people how to live, what is another function of religion?
5. Was it necessary for the disciples who cured by laying on of hands to know that some of the energy that passed through their hands was electromagnetic?
6. What had both Akhenaten and the twelve disciples learned?
7. What advantage in information had Akhenaten over the twelve disciples?
8. How do we know Akhenaten, in addition to electromagnetic energies also employed planetary energies in healing?
9. What three different and distinct types of energy are utilized in healing by laying on of hands?

10. Why must there be abundant electromagnetic energy present to accomplish important physical changes?
11. Why, to accomplish much, must electromagnetic energy be guided by astral energy?
12. What part does electromagnetic energy guided by astral energy play in the production of all physical phenomena produced by psychic means?
13. To produce a permanent cure why must the thought-structure also be permanently changed?
14. Why are materializations produced by mediums not permanent?
15. Only through the action of what kind of non-physical energy can the physical structure be changed?
16. The electromagnetic energy of which hand tends to give the part treated with it an additional blood supply?
The energy of which hand is used for the following:
17. To relieve congestion.
18. To cause a boil to come to a head.
19. When the healer wishes to diffuse and scatter a poison.
20. How is the proper planetary energy tuned in on?
21. Why must the visualized color flow to be effective?
22. Why should any attempt at control by an invisible entity always be resisted by the healer?
Relative to a similar major progressed aspect between other planets, how much power and harmony have the following:
23. A major progressed aspect made by the Moon?
24. A minor progressed aspect?
25. A transit aspect?

Stellar Healing In Practice (Serial No. 201)

1. What is the highest function of the healing art?
2. How does stellar diagnosis aid this function of the healer?
3. Is the usefulness of stellar diagnosis confined to stellar healing?
4. What three things affecting the individual do the thought-cells influence?
5. If the sick patient continues to eat the same foods, to think the same thoughts, and to follow the same habits, is he apt to get permanently well?
6. What is the first of the five distinct steps the stellar healer should take?
7. What is the second of the five distinct steps the stellar healer should take?
8. What are the three methods through which the desires of the thought-cells can be changed?
9. After the healer has selected the proper mental antidote, in what way does he instruct the patient?
10. What is the third of the five steps the stellar healer should take?
11. Why should the healer get the confidence of the patient sufficiently that the patient will talk about himself?
12. Where do discordant thoughts about the personality and health at once move?
13. Is it enough merely to show the patient that he should change his attitude?
14. When the patient's thought-cells are properly reconditioned, for what do they work?

15. Where is information about the foods the patient should eat to be obtained?
16. What is the fourth of the five distinct steps the stellar healer should take?
17. Why should the healer be thoroughly familiar with the power of suggestion?
18. In what way can the healer benefit the patient by talking to certain organs of his body?
19. What is the first station where treatment should be given?
20. What is the second station of treatment, and what planetary and electromagnetic energies should be there applied?
21. On what should the healer concentrate while treating the fifth station?
22. What is the seventh station to be treated, and what planetary and electromagnetic energies should be there delivered?
23. What is the eighth station to be treated?
24. How long should the treatment of the tenth station last?
25. After the spleen has been recharged, why is it advisable to make a little circular movement of the right hand above it?

Diagnosis And Treatment (Serial No. 202)

1. Why are environmental conditions important in healing?
2. Is it sometimes an advantage to supplement stellar healing with physical methods?
3. Is surgery sometimes necessary?
4. Are home remedies helpful in some complaints?
5. To insure that the health will not again be impaired when the environment is again unfavorable, what must happen to the desires of the responsible thought-cells?
6. Why will stellar diagnosis lead to greater success in the use of any healing method?
7. Does a diploma from a medical college enable a doctor to cure disease?
8. Does a diploma from The Church of Light stating that the individual has passed the examinations on stellar healing make of its possessor a stellar healer?
9. What are the only kind of colleges that have a legal right to bestow academic degrees?
10. Does passing examinations, such as are required to be initiated into the various degrees of The Religion of the Stars, carry any legal privilege?
11. Of what value are passes made over the patient's body?
12. What kind of passes should be made to soothe and draw blood from the patient's head?
13. If, instead of being too high-strung and nervous to sleep, the patient is drowsy and mentally inactive, what kind of passes should be made?
14. Why is it better that the patient should refrain from eating for an hour after treatment?
15. Why should any healer have a familiarity with the birth-chart and progressed constants of as many diseases as possible?
16. Why should the healer know the characteristic trends toward disease mapped by the discordant aspects of each planet?
17. What is the first objective sought in the specific treatment?
18. What planetary energies are selected to be tuned in on and delivered to the patient to attain this objective?

19. To what zone of the body are the selected planetary energies directed to attain this objective?
20. What is the second objective sought in the specific treatment?
21. How long is it advisable to treat the special region where the disease manifests?
22. What is the third objective sought in the specific treatment?
23. Other things being equal, how much power has a progressed planet in a house compared with the same planet in the same house at birth?
24. In a fifteen minute specific stellar treatment, how many minutes should be devoted to treating the dynamic structure chiefly responsible for the disease?
25. Does the reinforcement of the power of a major progressed aspect by a minor progressed aspect in any way influence the harmony or discord of the major progressed aspect?

Abdominal Troubles-Bleeding (Serial No. 203)

1. What are indicated by independent minor progressed aspects?
2. Except through their influence as rallying forces, for what do the thought-cells stimulated by each major progressed aspect commonly work?
3. Does the total activity of the thought-cells mapped by a given house usually relate to one event?
4. For stellar diagnosis and as a guide to the precautionary actions that should be taken, what birth-chart and progressed factors are commonly needed?
5. What in the birth-chart indicates the predispositions toward certain events and diseases?
6. What is indicated by the reinforcement peaks of power of a major progressed aspect?
7. Can the harmony or discord which exerts pressure on the thoughts, behavior and environment be estimated by the harmony or discord of the progressed aspect alone?
8. What may be considered the life-time normal harmony of a planet?
9. Relative to what normal must the slight deviation from normal harmony or discord indicated by a minor progressed aspect be estimated?
10. How much is the harmony or discord of the thought-cells mapped by the birth-chart altered by a major progressed aspect?
11. If the major progressed aspect is between two planets one of which at birth had many harmodynes and the other of which at birth had many discordynes, what will closely indicate the average benefit or detriment of the indicated event?
12. Under what influence of the same progressed aspect do people at times benefit in one department of life and lose in another?
13. What is the normal progressed harmony of a planet?
14. Give the rule for determining the approximate average relative harmony of a major progressed aspect.
15. Give the rule for finding the relative harmony or discord of each terminal influenced by a major progressed aspect.
16. What knowledge must the layman have to determine the diseases toward which he has a predisposition and when they are likely to develop?
17. How does the layman determine which thoughts he should employ as precautionary actions in thwarting the development of some disease toward which he has a predisposition?

18. Where may be found instructions on the foods to be used in taking precautionary actions?
19. In what way can the layman use suggestion to encourage organs not properly doing their work to more healthy activity?
20. How can the layman apply the needed planetary energy to the region needing special stellar treatment?
21. What happens to proteins when there is a low output of the cortin hormone?
22. What is the accident planet?
23. Either of which two afflicted planets may give a predisposition toward acidosis?
24. What are the progressed constants of alcoholism?
25. What part does Saturn play in arthritis?

Blindness-Coronary Thrombosis (Serial No. 204)

1. Give the rule governing how often each major progressed constant is reinforced by a minor progressed aspect to certain terminals at the time the event occurs or the disease develops.
2. Give the rule governing how often each major progressed constant is released by a transit aspect to certain terminals and each independent minor progressed aspect is released by a transit aspect to certain terminals, at the time the event takes place.
3. Illustrate how the power of a major progressed aspect is already there, but is merely released by the trigger effect of a transit aspect.
4. In what way does the Sun measure major progressions?
5. In what way does the Moon measure minor progressions?
6. In what way does the earth measure transit progressions?
7. After gestation due to major progressions and minor progressions, before a major event is born how must it be released?
In what way does knowledge of the reinforcement function of minor progressed aspects, and the trigger effect of transit aspects do the following:
8. Enable the astrologer to eliminate periods while a major progressed aspect is within orb as unlikely to bring a given event or the commencement of a given disease?
9. Enable the astrologer more precisely to time indicated events?
10. Greatly aid in rectifying birth-charts?
11. Enable the individual to select a safe time to undertake some hazardous task?
12. Enable the individual to select the best time to act to get all possible benefit from some harmonious progressed aspect?
13. In addition to a progressed aspect involving Mars, how does a progressed aspect involving either Neptune or Pluto increase the danger of having blood poisoning?
14. What are the progressed constants of bowel trouble?
15. What are the birth-chart constants of Bright's disease?
16. What have the parathyroid glands to do with bronchitis?
17. How does an afflicted Jupiter encourage catarrh?
What are the progressed constants for the following:
18. Cerebral hemorrhage.
19. Difficulty in child-birth.
20. Chicken-pox.

21. What is the constant progressed type of the common cold?
22. What kind of thoughts are held by people who seldom catch cold?
23. To what is colic almost always due?
24. What sign rules the colon?
25. What planet is nearly always involved in constipation?

Cyst-Hay Fever (Serial No. 205)

1. According to the latest findings, how often is the one degree rule for all progressed aspects valid?
2. What planet is afflicted by progression at the time cysts develop?
3. What are the birth-chart constants of deafness?
4. What are the progressed constants of dementia praecox?
5. What two planets are involved in dengue fever?
6. What is the diet that should be used by those who have dermatitis?
7. Why should those suffering from diabetes avoid worry or excitement?
8. What is the influence of negative planets on those who have diphtheria?
9. What planet when prominent and afflicted favors dropsy?
10. What is the progressed constant of ear trouble?
11. In addition to an upper-octave planet, what planet is involved in eczema?
12. From what glands is derived the abnormal nervous tension that manifests as epilepsy?
13. What two planets are involved in erysipelas in addition to an upper octave planet?
14. What are the birth-chart constants of eye trouble?
15. What are the progressed constants of fainting?
16. What has insulin to do with fatty tumors?
17. What are the birth-chart constants of female trouble?
18. What is the progressed constant of fibrous tumor?
19. What planet favors invasion by fungus growth?
20. What planet is involved in gall bladder trouble?
21. What are the progressed constants of gangrene?
22. What are the birth-chart constants of gastritis?
23. Why do mental stresses favor gastric ulcer?
24. What three things may be the cause of goiter?
25. Why do heavy afflictions involving Mercury favor hay fever?

Headache-Mumps (Serial No. 206)

1. A planet in what sign favors headache?
2. What is the usual cause of heart palpitation?
3. What is the chief cause of so many Americans having heart trouble?
4. What practices often permit these with severe heart trouble to live longer lives?
5. What two planetary constants are involved in hemorrhoids?
6. What physical habits help to relieve hemorrhoids?
7. What influence has the thyroid gland on high blood pressure?
8. What influence have the parathyroid glands on hives?
9. What should be done when it is suspected an individual has infantile paralysis?
10. What part does Neptune play in influenza?
11. What two planets are commonly afflicted in insanity?
12. What planets and what signs are involved as constants of kidney trouble?
13. What additional constant is present when kidney stone is indicated?

14. What kind of diet is recommended for laryngitis?
15. What three planets are involved as constants in leukemia?
16. What planet is involved in liver trouble?
17. What two planets are involved in low blood pressure?
18. What is lumbago?
19. In malaria, why should the adrenal glands be favored as much as possible?
20. What are the birth-chart and progressed constants of mastoid trouble?
21. What should be the diet of a person suffering from measles?
22. What is the cause of menopause trouble?
23. What is the best source of vitamin E?
24. The affliction of which planets to each other increases the likelihood of miscarriage?
25. In addition to Mars, a progressed aspect involving which planet increases the likelihood of contracting mumps?

Nervous Breakdown-Scarlet Fever (Serial No. 207)

1. Is nervous breakdown sometimes promoted by physical conditions?
2. Is nervous breakdown often entirely due to mental conditions?
3. What physical diet and what thoughts are recommended for those suffering from nervous breakdown?
4. What should the diet contain to assist overcoming nervousness?
5. The influence of which two planets may exhaust the nerve currents and promote neuralgia?
6. In neurasthenia is the difficulty chiefly physical or chiefly mental?
7. What part does Mars play in neuritis?
8. What part does the thymus gland often take in promoting obesity?
9. What is one of the best things for a person to do who tends to be afflicted by obsession?
10. A progressed aspect involving what planet is always present at the time of an operation?
11. What planet is always afflicted when there is ovary trouble?
12. What is the relation between emotional disturbances and ovary trouble?
13. What planet promotes all kinds of paralysis?
14. What are the progressed constants of pleurisy?
15. What is the planet of poisoning?
16. What kind of thinking should be cultivated by those suffering from psoriasis?
17. Should the pneumonia patient be permitted to get up and walk about in the early stages of the disease?
18. What planet and what sign are often involved in pyloric trouble?
19. What condition of the blood stream gives rise to rheumatism?
20. What is the diet recommended for those with rheumatism?
21. What organ of the body is often impaired by rheumatic fever?
22. What condition of the intestinal tract markedly increases the ability to assimilate calcium?
23. In addition to abundant calcium what vitamin is necessary to prevent the development of rickets?
24. What two planets are involved in ringworm?

Sciatica-Yellow Fever (Serial No. 208)

1. What physical conditions assist in developing sciatica?

2. In shingles, what planetary energy should be applied to the zone occupied by Venus?
3. What are the progressed constants for sinus trouble?
4. What planet is involved in both the birth-chart and progressed constants of sleeping sickness?
5. What two planets are involved in small pox?
6. What planet or its sign is involved in spinal curvature?
7. With what energy should the spleen be charged when it is diseased?
8. What is the difference between a strain and a sprain?
9. What is the progressed constant of St. Vitus dance?
10. What are the progressed constants of stuttering?
11. To what mental condition is stuttering due?
12. The ruler of which house is involved in a progressed aspect at the time suicide takes place?
13. What are the birth-chart constants of sun stroke?
14. What are the birth-chart constants of syphilis?
15. In addition to Venus or Jupiter, what planets are involved by progression at the time of thrombosis?
16. What two planets are involved in tick fever?
17. What should be the diet to assist in overcoming tonsil trouble?
18. Afflictions to what planet indicate tooth trouble?
19. What are the important factors in overcoming tuberculosis?
20. What kind of a blood stream favors the development of tumors?
21. What should be the chief diet of the typhoid fever patient until he gains some strength?
22. What deficiencies nearly always contribute to the development of an ulcer?
23. What planet has much influence over the feminine cycles?
24. What should the diet contain to prevent the development of varicose veins?
25. What should the diet contain to combat the hypersensitivity of the membranes in whooping cough?

Appendix

History of The Brotherhood of Light

To trace the origin of The Religion of the Stars, recourse must be made to tradition. Pseudo occultists and charlatans are only too ready to appropriate a name and use it to deceive the unwary. Hence a name and boasted lineage mean nothing in such matters. When genuine they rest upon secret tradition. And such documentary evidence as can be submitted for the genuine may easily be imitated by the spurious.

The only safe criterion of the genuineness of any esoteric teaching is the amount and accuracy of the information contained therein. The Brotherhood of Light lessons are now accessible to all. We welcome investigation with a view to proving their value. The lineage here given is not to claim infallibility or to prove authority, but to disclaim any originality in the ideas set forth beyond their method of presentation. Upon the prima facie evidence these lessons contain as expositors of THE RELIGION OF THE STARS, The Church of Light is well content to rest all its claims.

According to tradition, in the year 2,440 B.C., a group separated from the theocracy of Egypt, and through subsequent times, as a secret order, the name of which translated into English means The Brotherhood of Light, has been perpetuated, and has exerted a beneficial influence upon western civilization.

During only one period of Egyptian history did the teachings of The Religion of the Stars have a great influence on Egyptian civilization. This was during the reign of Akhenaten. This king was influenced by The Brotherhood of Light and broke completely with the corrupt priesthood of Amen. He moved to his City of the Horizon and spread stellar art and wisdom throughout Egypt. He died before the establishing of a new civilization could be completed; so the priests of Amen did the best they could to destroy his city and philosophy.

With the ascension of the Greek civilization, the influence of The Brotherhood of Light is seen in the astrology and mythology of Greece. Many of the Greek Mysteries take their basic rites from the ancient Egyptians.

The Greek philosophers, Thales, Pythagoras, Plato, Euxodus, and a score of others famed for learning that might be mentioned, received initiation directly at the hands of the Egyptian members of the fraternity.

At a later date this venerable order gave the impetus to learning in Alexandria, which made the city so justly famous. One of The Brotherhood of Light, the noble Hypatia, who, after the decline of the colleges in that city,

was the last to withstand the onslaughts of superstitious ignorance, and died endeavoring to spread the light of ancient wisdom.

It was The Brotherhood of Light that preserved the taper of learning from complete extinction during the dark ages, and that was responsible for kindling with it the fires of science and philosophy in Europe, even in the face of ruthless persecution.

The Brotherhood of Light not only has persisted as such on the innerplanes, but the line of succession has been kept alive, although at times it became exceedingly thin, also on the physical plane.

Much of our written history is lost in the mist of time. The thread of modern day existence on the physical plane picks up with the following.

M. Theon, for years, was the head of The Brotherhood of Light in Europe. The teachings came to America and were published in two books translated and edited by Emma Harding Britten, *Art Magic* and *Ghost Land*. The original edition of *Art Magic* bears this legend at the bottom of the title page, "Published by the author, at New York, America, 1876."

T.H. Burgoyne was the son of a physician in Scotland. He roamed the moors during his boyhood and became conversant with the birds and flowers. He was an amateur naturalist. He was also a natural seer. Through his seership he contacted The Brotherhood of Light on the innerplane, and later contacted M. Theon in person. Still later he came to America, where he taught and wrote on occult subjects. We find articles on the tarot, written by him, for instance, during 1887 and 1888, in *The Platonist*, published by Thomas M. Johnson at Osceola, Missouri. This was more than a dozen years before Genevieve Stebbins translated the work of P. Christian.

Captain Norman Astley, an officer in the British Army, had traveled extensively. In the performance of his duties he had lived in India and there had pursued occult studies. He also resided a short time in Australia. Later he returned to England to meet M. Theon, having previously contacted The Brotherhood of Light in his travels.

Astley was also a surveyor. Retired from the British Army he surveyed, among other places, what is now Carmel, California. It was such a beautiful region that when he married Genevieve Stebbins, a member of The Brotherhood of Light and a Delsarte teacher in New York, they decided to build their home in Carmel. That was in the 1860's.

As T.H. Burgoyne was a member of the same organization, it was natural he should pay them a visit. Captain and Mrs. Astley, who had contacted a number of earnest students suggested to Burgoyne that he write the basic Brotherhood of Light teachings as a series of lessons. This he agreed to do provided the students would enable him to live while he did this work. The Astleys made contact with students he knew and 12 were found who were willing to donate \$5 per month to this purpose.

Burgoyne lived in the home of the Astleys while he wrote *Light of Egypt*, Volume I. He wrote and issued as a manuscript lesson, which the 12 students were permitted to copy, one chapter each month. He had a white pony which would come at his whistle and follow him as if it were a dog. Each morning the weather was clement, he and his pony would leave the Astley domicile and go to a certain wild spot on Point Lobos to commune with the Monterey pines, to listen to the birds, to caress the flowers, and to hear the noisy surf boil into a little rocky cove above which in spring wild asters grew in profusion. Overlooking the charging and retreating waters, always sitting at the same spot, he wrote the whole of *Light of Egypt*, Volume I.

For reasons set forth in the preface to *Light of Egypt, Volume I*, it was later decided to publish these private lessons in book form. That this might be done it became necessary to finance the venture, and to have some kind of an organization which would resist the attacks it was anticipated would be made by those opposed to the purpose of the book.

Dr. Henry Wagner and Mrs. Belle M. Wagner (both with Jupiter in the tenth house of their birthcharts) agreed to finance the venture, and did so to the extent of \$100,000. And a branch of The Brotherhood of Light called the Hermetic Brotherhood of Luxor, was formed for the express purpose of seeing to it that the *Light of Egypt* and its teachings should receive wide distribution.

The Hermetic Brotherhood of Luxor was governed in all its affairs by a council of three members consisting of a scribe, or secretary, an astrologer and a seer. Burgoyne was the original secretary. He passed to the next plane in March 1894, while residing in Humboldt County, California. Belle Wagner, Sun in Pisces, Aquarius rising and the Moon in the first house in Aquarius, was elected to take his place on the council. Minnie Higgins, Sun in Gemini, was the astrologer. Mrs. Anderson, Sun in Sagittarius, Moon in Cancer, Libra rising, was the seer. Meetings to decide issues were held on the second floor of Mrs. Anderson's large home in Denver, Colorado.

The bylaws of The Hermetic Brotherhood of Luxor made it impossible for any person under 21 years of age to join; made it impossible for a married person to join unless the spouse also joined, and made membership possible only after the individual's record had been thoroughly investigated.

Early in 1909 Minnie Higgins passed to the next plane, and in the spring of that year Elbert Benjamin was called to Denver and elected to take her place on the Council as the astrologer. At this meeting on the second floor of Mrs. Anderson's home, the other two members of the Council did their utmost, as the official minutes of the meeting show, to convince Elbert Benjamin that he should undertake the job of preparing a complete system of education that would enable a wide public to become conversant with The Religion of the Stars. But it was not until April of the following year that he consented to do this work.

Meanwhile he had contacted personally and through correspondence not only members of the Hermetic Brotherhood of Luxor, but members of The Brotherhood of Light who had remained aloof from the organization with headquarters at Denver. But it was chiefly by his becoming more closely associated with The Brotherhood of Light on the innerplane that he overcame his reluctance to take over so imposing a task.

In 1913 the three members of the Council of The Hermetic Brotherhood of Luxor, after due deliberation, voted unanimously to close The Hermetic Brotherhood of Luxor, and since then no members have been accepted.

During the period, 1914 to 1934 that The Brotherhood of Light lessons were being written, there was never any spirit other than that of helpfulness shown toward this work by any member of The Brotherhood of Light or by any person who had been a member of The Brotherhood of Luxor. And, in particular, Captain and Mrs. Astley were helpful. Elbert Benjamin visited them in their home on various occasions, and some of the extensive and encouraging correspondence he received from them helped him in this work.

In 1918 classes were first opened to the public. In order to carry out its objective of reestablishing The Religion of the Stars on earth, The Brotherhood of Light was incorporated as The Church of Light, on November 2,

1932, 9:55 a.m. PST at Los Angeles. The three founders of The Church of Light were Elbert Benjamine (C.C. Zain), who served as President until his demise November 18, 1951; Elizabeth Benjamine, who served as Secretary Treasurer until her passing in 1942; and Fred Skinner, who served as Vice President until his demise in 1940. From the 1920's through the 1940's much astrological research was carried on which has become standard reference for many astrologers.

Much of the history of The Church of Light in years between 1915 and 1951 involve the history of Mr. Benjamine's efforts. His mission on earth being completed through the writing, rewriting and printing of The Brotherhood of Light lessons, he felt that his physical form was worn beyond repair and that he could better serve the cause of Universal Welfare by leaving that body behind and moving to the next phase of his work in God's Great Plan.

In accordance with Mr. Benjamine's instructions, there was no public funeral, and his body was cremated. Because of his desire to be free from thoughts and emotions of grief so he might make a speedy adjustment in his new life, the announcement of his passing was withheld until the Response Day dinner in Los Angeles on December 18, 1951.

He left a priceless heritage in The Brotherhood of Light lessons, which must be preserved and passed on unchanged to succeeding generations.

The Light of Egypt is a consortium of advanced students and Hermiticians who seek to carry on the high traditions of the Brotherhood of Light by contributing our utmost to Universal Welfare without thought of personal gain or recompense.

It continues to work toward fulfilling these purpose by meeting the needs of a new world order with its progressive philosophy of soul development. As always there is a determination that each individual should have the opportunity to Contribute his or her Utmost to Universal Welfare to the end that all people may live with freedom from fear; freedom from want; freedom of speech; freedom of religion, and to be enlightened to the extent they wish by the soul uplifting teachings of The Religion of the Stars.

Appendix

Declaration of Principles

We are a Religious altruistic association. We consider all humanity as equal in the higher sense, and utilize our resources for the purpose of assisting each individual to fulfill their part in the Divine Plan. Our Hermetic Philosophy indicates that each soul is responsible for its spiritual progress; and our lessons provide the best information possible for the attainment of true spirituality and happiness on the physical plane and on each higher plane of progress.

There cannot be Two Orders of Truth in the Universe. Therefore, we deny that there is any antagonism between true Science and true Religion. We accept but one book as infallible in interpreting the Will of Deity. That is the Book of Nature. We worship but one Religion, which is also a Science: Nature's laws.

Students are under no obligation to accept our teachings. We encourage them to investigate all existing religious and occult organizations, and our course on *Evolution of Religion* gives details on how our philosophy relates to many of the religions of the world today.

We teach that the family and the marriage relationship are the most powerful aid in building the spiritual body. It is through the sacrifices of the parents for the children that they give up selfishness and then transfer that love to higher planes of work. Our course, *Ancient Masonry*, gives more detail about this process, as well as the course on Spiritual Alchemy and the one on *Occultism Applied to Daily Life*.

Our view of the reason for existence upon the earth is discussed in the book, *Astrological Signatures*, and the book *Organic Alchemy*. We know from tradition and scientific experiments that the soul and personality survive the transition called death and live on higher planes of existence. This is outlined in the book *The Next Life*. We also have lessons on healing and alchemy (psychology) both from the spiritual and physical plane.

Our philosophy is grounded in two basic studies: The Golden Key of Astrology and the Silver Key of the Sacred Tarot. Only with a thorough knowledge of these two keys may the sanctuary of Nature's Temple be opened. Astrology is the science of finding and utilizing the natural potentialities as indicated by the planetary chart of birth. It becomes a religion when it shows the individual how these natural tendencies can be utilized for the benefit of all humanity and furtherance of the purposes of Deity. This is why we are called The Religion of the Stars.

The *Sacred Tarot* is the pictorial form of the spiritual ideas of our world as viewed by the spiritual giants of the past and checked by subsequent illuminated ones as to accuracy. Initiates of all ages have added their contributions. It is the esoteric presentation of the Hermetic Philosophy, and provides each Neophyte with many sources of meditations and inspiration. Our courses on *The Sacred Tarot* and *Spiritual Astrology* give much insight on these two foundations of Knowledge.

The Religion of the Stars is dedicated to the unfoldment of the Universal Plan for this Aquarian Age. A Nine Point Plan provides the framework for this work. The Nine Point Plan is:

That everyone should have:

**Freedom from Want
Freedom of Expression
Freedom from Fear
Freedom of Religion**

That to obtain these in proper measure, people must have the freedom to become familiar with:

**Facts of Astrology
Facts of Induced Emotion
Facts of Extrasensory Perception
Facts of Directed Thinking**

And, that instead of working to take all that he can for himself, each must learn to find pleasure in

Contributing His or Her Utmost to Universal Welfare

The Brotherhood of Light teachings are presented in 21 courses covering 21 Branches of Occult Science. The courses have study questions in the back of each book for every lesson. If you request them, you will receive a final exam for each course. Upon passing the final exam, the Award Manuscript will be sent to you. These give information on the safest method of developing higher states of consciousness and other information of value to the neophyte.

Appendix

Home Study Program

About The Home Study Program...

The Brotherhood of Light lessons offer the safest and most reliable information concerning occult studies found anywhere! Many are interested in investigating the occult sciences but cannot find a suitable teacher or are unable to find a practical approach to such matters. To meet this challenge the Home Study Program was designed.

Much information about the outerplane environment can be had in public schools and universities. Of equal importance is knowledge of the innerplane. Since this information is not yet available in our public institutions, The Brotherhood of Light lessons are published.

With the dawning Aquarian Age, our planet is undergoing a new dispensation of knowledge. Manifestations of this knowledge are evident in the scientific and technological growth experienced since 1881. So that development may be along the most constructive channels, it is important that we work to align personal and community intention to the Will of Deity. It is the role of religion to facilitate this alignment.

The Religion of the Stars teaches that the most reliable evidence of God's intention is obtained by observing Nature. To do this requires not only effort, but the process of trial and error. Sometimes standing on the shoulders of those who precede us can be helpful. May we suggest that you will find The Brotherhood of Light lessons to be a reliable guide, as well as some of the most uplifting material you will ever encounter.

Who can enroll in the Home Study Program...

Anyone can study the 21 Courses by reading the material contained therein, and may submit examinations for correction. Upon receiving a passing grade, members will receive the "NotSold Manuscripts." They contain information which we believe to be safest and most reliable methods for psychic unfoldment.

While the reason for each person's study is highly personal, there can also be an organization goal. That is, to become a Hermetician. A Hermetician is a person who has passed final exams on all 21 Courses and thereby demonstrated physical knowledge of all branches of the Hermetic Sciences (Astrology, Alchemy and Magic). As a Hermetician one is eligible to participate more fully in the religious and educational aspects of the organization.

How does the program work...

Recognizing that each person begins his/her course of study with a particular area of interest we have structured the program so you may pass courses in any order you wish. We strongly encourage you to undertake the passing of examinations in sequence from Course 1 to 21.

You can request that we send you an a Course 1 (Laws of Occultism) examination.

After receiving a passing score (exams are open book) we will send you the "Not Sold Manuscript." This process is repeated until you reach the Hermetician level by passing exams for all 21 courses.

Appendix

Other Brotherhood of Light Courses

Other Brotherhood of Light Courses in the Astrology Branch

Course 2, Astrological Signatures

For those only vaguely acquainted with Astrology, this course provides a genuinely complete starting point. For those thoroughly conversant in the effects of the stars and planets, this course explains the connection Astrology has always had throughout the millennia with the Religion of the Stars. The religion's Hermetic Traditions concerning where the soul had its origin, through what processes it reached the earth and why human incarnation was necessary are related. Of special interest is the explanation of the purpose of joy and sorrow. Also included is a description of the aspect of the Religion of the Stars evident in the Mysteries of Ancient Egypt—from a translation by Genevieve Stebbins of Iamblichus's description of the ancient initiation ceremony.

Course 7, Spiritual Astrology

The ancient Wise Ones, when they had discovered some great and vital spiritual truth, looked about to find some material object which would explain, in terms of universal symbolism, this truth to generations to come, of whatever land and of whatever subsequent time. Doctrines of the Religion of the Stars thus formulated were pictured in the sky as the 48 ancient constellations. Each of these constellations is a spiritual text and by their means every story in the Bible or any other Sacred Book may correctly be interpreted.

Course 8, Horary Astrology

This course is most often chosen by beginning students of Astrology for its technical Lesson, "How to Erect a Horoscope," as well as for its clearly organized, easy-to-understand system for judging any given horoscope. More advanced students quite frequently refer to this volume for details concerning the delineation of a horary chart. For students of the Religion of the Stars and/or Hermetic Astrology, the Lesson, "Doctrine of Horary Astrology," is of special importance, with its explanation of just how and why this branch of occult science can solve a problem relating to events past, present and future. Also included for beginning students are C.C. Zain's chart erection shortcuts, for which he designed the Church of Light #2 chart pad to further facilitate this process.

Course 10-1, Delineating the Horoscope

As the Lessons on Astrology emphasize: much is to be gained by diligent application of the rules when delineating—and much is lost by not doing so. Here, then, is the Hermetic System of Natal Astrology, step by step, along with the unsurpassed “Outline of a Complete Astrological Reading.” When this process is followed, one can hardly avoid providing an effective and helpful delineation. Of interest to the beginning student or the advanced are the explanations of the 36 decanates, illustrated with examples of renowned persons having Sun, Moon or Ascendant in that decanate.

Course 10-2, Progressing the Horoscope

A technical manual on the Hermetic System of Progressions, major and minor. Some of the best proof of Astrology’s validity and effectiveness (especially for those extremely skeptical of the science) can be found in this area due to the ease of observing the influences of properly timed major progressions. Hermetic rules regarding the delineation of progressed aspects assist the student in avoiding erroneous assumptions concerning the progressed chart. To round out this study of Natal Astrology, a Lesson on the Hermetic System of rectifying the horoscope is included for use in erecting a birthchart when the exact birth-time is undetermined.

Course 13, Mundane Astrology

The sign occupied by each of the planets in our solar system, and the aspects they form from time to time, have an influence over the trend of world events. Where these events will chiefly take place, however, must be determined from specific natal charts and progressions. When these natal charts are unavailable, though, astrological influences can be determined through the Cycle charts of the nations, cities, groups, etc., in question. This course is not only one of the few technical manuals available on the erection of Cycle charts and delineation, but, by way of numerous examples, provides a fascinating and enlightening account of the effect of planetary cycles in the 1800’s and early 1900’s on the United States and the world.

Course 15, Weather Predicting

A complete treatment of the subject and the only text available entirely devoted to astrological influences on the weather. The inner-plane weather mapped by astrological positions has an influence on all earthly things and enterprises and physical weather is no exception. Weather predicting according to the Hermetic System here set forth is exclusively astrological. The attention is directed to the manner in which the inner-plane weather tends to change the physical weather from its normal trend during the season at any place selected. This is particularly useful information for those involved in agriculture, aviation, travel or planning a social event. It is an aspect of the science that should surely not be neglected by anyone seeking a complete, working knowledge of Astrology.

**The 21 volume Brotherhood of Light series
on the occult sciences by C.C. Zain includes:
3 Branches of Study**

| | Title | Serial Number |
|--------------------------|---|----------------------|
| Astrology | | |
| Cs. 2 | Astrological Signatures | 1–5, 20, 21, 46 & 47 |
| Cs. 7 | Spiritual Astrology | 71–83 |
| Cs. 8 | Horary Astrology | 36, 86–92 |
| Cs. 10 | Natal Astrology | 19, 103–117 |
| Cs. 13 | Mundane Astrology | 141–150 |
| Cs. 15 | Weather Predicting | 190–196 |
| Cs. 16 | Stellar Healing | 197–208 |
| Alchemy | | |
| Cs. 3 | Spiritual Alchemy | 49–54 |
| Cs. 9 | Mental Alchemy | 95–101 |
| Cs. 12 | Natural Alchemy | 125–140 |
| Cs. 14 | Occultism Applied | 151–162 |
| Cs. 17 | Cosmic Alchemy | 164–172 |
| Cs. 19 | Organic Alchemy | 209–215 |
| Cs. 21 | Personal Alchemy | 216–225 |
| Magic | | |
| Cs. 1 | Laws of Occultism | 39–45 |
| Cs. 4 | Ancient Masonry | 6–18 |
| Cs. 5 | Esoteric Psychology | 56–67 |
| Cs. 6 | The Sacred Tarot | 22–33, & 48 |
| Cs. 11 | Divination & Character Reading | 118–124 |
| Cs. 18 | Imponderable Forces | 183–189 |
| Cs. 20 | The Next Life | 173–182 |
| Award Manuscripts | | |
| 1 | The Safest and Most Effective Method of Psychic Development | 226 |
| 2 | How to Become Conscious on the Inner Plane | 227 |
| 3 | How to Contact Desired Information on the Inner Plane | 228 |
| 4 | How to Hold the Consciousness on the Selected Level of the Inner Plane | 229 |
| 5 | Breathing to Acquire Proper Electrification | 54 |
| 6 | How to Become Objectively Aware of Information Acquired from the Inner Plane | 230 |

| | Title | Serial Number |
|----|--|----------------------|
| 7 | How to Use the Transition Technique of ESP | 231 |
| 8 | How to Control Inner Plane Activities | 232 |
| 9 | How to Develop Soul Activity | 34 |
| 10 | How to Direct Soul Activity | 35 |
| 11 | How to Travel in the Astral | 94 |
