P. O. Box 1525 Los Angeles, Calif.

JUNE 1927

Uranus and Jupiter in 1927

According to the Hermetic System of Mundane Astrology, now in preparation, each of the planets when it moves across the celestial equator to north declination, changes polarity. This moment is the commencement of the planet's cycle, and a figure erected then for the capitol of a country will show in what manner the things ruled by the planet will affect the affairs of the country during the cycle. It is the same principle extended to the planets that is commonly used in erecting a chart for the sun's ingress.

Such cycles of both Uranus and Jupiter, as well as two conjunctions of Uranus and Jupiter, take place in 1927, but in each case the influence is but of temporary duration due to the planets retrograding back to their previous positions. They are like entries in a race jockeying for position. They are called back behind the scratch after making a preliminary start, and the real start, the more permanent cycle and more permanent conjunction, does not take place until 1928. Yet, as one may gain some idea of what a racer can do from a preliminary start, so by watching closely the developments following these major influences in 1927 we will be able to judge with more certainty what will happen in and subsequent to 1928.

Uranus in politics rules the radical element, in business it rules invention, and in thought that which is occult or progressive. The Uranian cycle, therefore, indicates how these three things will influence the affairs of the world. In Washington this cycle commences May 1, 1927, 5:36 P. M., L. M. T. Uranus, ruler of the cycle is in the 5th., indicating activity in speculation and in motion picture circles. It is trine the M. C. which shows good business conditions; but its square to Mars in the 9th. indicates strife over foreign commerce and through propoganda issued from foreign quarters by the radical element. Sun and Moon in the 7th. applying to square Neptune in the 10th. indicates difficulty through business relations with foreign countries. The influence of Uranus, however, is very favorable for business as a whole in the U. S.

This cycle commences in London May 1, 1927, 10:44 P. M. Uranus is in the 3rd., indicating its chief influence to be over transportation. Its trine to Saturn in

the 12th. indicates gain through secret diplomacy. Papers and documents issued by the radical element of a foreign country will cause strife and talk of reprisals, as shown by the square of Uranus to Mars in the 7th.

Jupiter in politics rules capitalism, in business it rules finances in general, and in thought it rules philanthropy and religion. The Jupiterian cycle indicates how these three things will affect the world's affairs. The cycle commences at Washington July 7, 1927, 6:31 A. M. L. M. T. Its chief influence is over foreign trade and propaganda. Jupiter being with Uranus will stimulate liberal thought. It makes the trine from the 9th. to Mercury in the 12th. and to the Ascendant, and also a trine to Saturn in the 5th. Speculative interests will carry out secret negotiations in foreign countries. This chart indicates good business conditions for the last half of 1927 in the U. S.

The Jupiterian cycle commences in London July 7, 1927, 11:39 A. M. As Jupiter is with Uranus in the 6th. trine Mercury in the 10th. and trine Saturn in the 2nd. it will be favorable for labor bettering its condition through political influence. It favors employment. The sun in the M. C. square the Moon in the Asc., however, indicates there will be little support of the present government by the common people.

Jupiter comes conjunction Uranus at Washington first on July 15th. at 3:37 P. M. L. M. T., and later on August 11th. at 7:00 A. M. The first of these figures indicates effort to assist the farmer and those who need homes. The second figure indicates that foreign relations in business will cause considerable anxiety, and legislation will be proposed to remedy the condition. Capitol and labor, however, will pull together, and business conditions will be satisfactory.

The first Jupiter-Uranian conjunction at London occurs July 15, 8:45 P. M. The second occurs Aug. 11, 0:08 P. M. In the first figure the conjunction falls in the 1st., and is favorable for labor. Foreign relations, however, and commerce in general will cause strife, as shown by Mars and Neptune in the 7th. square Saturn in the 9th. In the second figure the conjunction being sesqui-square the sun on the M. C., Mars in the 10th., and Moon opposition Mercury from 3rd. to 9th. indicates that labor will gain in political power and the present government will have a hard time politically.

NEW BOOKS
