Data Now Needed.—For our next reports we now urgently need the birth data of individuals who have been divorced and those who have been separated from the marriage partner pending divorce. Both the date of separation and the date of reconciliation or divorce are needed. In such States as grant an interlocutory decree, the date of this decree is the one needed.

We also desire the birth data of individuals who have taken important journeys. The dates of the journeys should be given, and whether each is considered by the individual to be a long journey or a short one. **HELP US GATHER THIS INFORMATION.**

NEW BOOKS

Our blank astrological charts are printed on letter size bond typewriter paper. No. 1, the professional chart, has a 6½-inch circle in the form of a symbolic serpent. No. 2, the student's chart, has a 5-inch circle, and blank spaces especially arranged to assist the student in the various steps of calculating the chart and tabulating the essential features for reading. Unless number is specified, they will be sent assorted.

B. OF L. EXTENSION WORK

Certain methods applied in our classes have yielded unusually satisfactory results. Starting in a very modest way in this issue, we hope gradually to extend these methods to the readers of the Quarterly, in addition to publishing the B. of L. Astrological Reports. The method to be followed is to write out the answer to each question in detail and file it together with the Quarterly. These questions will be numbered, and the answers will be published in subsequent Quarterlies under the same serial

numbe The answers to the nine questions in this issue will be published in the June, 1931, Quarterly.

Answers to September, 1930, Questions.—Actually no questions were propounded in the September issue, but under the Mars Cycle it was stated: "About the time this reaches students, Mars will have reached, on Sept. 17, the next important aspects, coming to the opposition of Saturn, and square (through printer's error printed trine) Uranus in this chart." To illustrate the method used in extension work we should have asked:

Question. The Mars Cycle has to do with strife, and Mars has moved into the 7th, house of foreign countries, in opposition to Saturn r, in the house representing the people of the United States, and Square Uranus r, the planet of Bolshevism and revolution. Do you think, therefore, that there will be complete peace with foreign nations, or that the relations of this country to Bolshevism will be pleasant for a few days about the 17th of September?

Answer. At the exact time this aspect was complete, Secretary of Agriculture Hyde was making his investigation of Soviet activities on the Chicago grain market, which resulted in a Senatorial investigation. The chief headline of the Los Angeles Evening Express for Sept. 20 read: "Big Scandal Over Soviet Juggling U. S. Grain Prices." Sept. 16, the chief headline of the Los Angeles Examiner read: "U. S. Gunboat Battles Communists" (in China).

Exercises for Amateur Astrologers.—1. In the Uranian Cycle (published in Dec., 1927, Quarterly and in Lesson No. 143), Uranus in the 1st reaches the semi-square of Sun r in the 12th, April 29, 1931. Uranus rules both prohibition and organized labor. This aspect is an affliction lasting several weeks. During this period do you think prohibition will be unduly prominent? And do you think there will be labor troubles and demonstrations?

2. In the Saturn Cycle (published in Lesson No. 144, and to appear in an early Quarterly), Saturn in the 1st reaches the square of Jupiter r in the 9th, Feb. 4, 1931. The 9th has to do with commerce to foreign lands and with interstate transportation. Saturn tends to bring loss or difficulties during the two weeks this aspect operates. Do you think there will be loss and obstacles to such shipping within a week of Feb. 4?

3. In the Saturn Cycle, Saturn reaches the square of the Moon r in the 3rd, Feb. 27, 1931. The 3rd has to do with less distant transportation. Do you think that within a week of Feb. 27, due to weather conditions (Saturn causes loss through natural phenom-

ena), serious obstacles will develop relative to transportation?

4. In the Mars Cycle (published in the Sept., 1930, Quarterly), Mars reaches the square of the Sun r in the 4th, Jan. 27 and April 22, 1931. Within three days of these dates do you think there will be heavy loss of property by fire, and loss of life through accident or violence?

5. In the Mars cycle, Mars reaches the square of the Moon r in the 4th, Feb. 18 and March 27, 1931. Do you think within three days of these dates there will be destructive explosions or fires, and notable events in relation to transportation?

6. In the Solar Ingress Cycle, March 21, 1931, 8:58 A. M., L. M. T., Washington, D. C., published in this issue, Uranus, ruling prohibition and radical measures, is in the house of Congress. The Sun reaches the conjunction of Uranus r April 5, 1931. As this is Sunday, do you think that on the 4th or 6th of April drastic measures will be advocated in Congress, causing much excitement?

7. In this Ingress map (published on first page), the Sun reaches the square of Saturn r in the 9th, on April 12, 1931. The 9th has to do with shipping. Do you think foreign trade will prosper under this aspect?

8. In this Ingress map, the Sun reaches the conjunction of the Moon r in the 12th, on April 15, 1931. The 12th has to do with prisons and secret things. Do you think something of importance to the public that has been kept secret will be exposed?

9. In this Ingress map, the Sun reaches the square of Mars r in the 3rd, on April 19, 1931. The 3rd has to do with transportation, and Mars has to do with strife and violence. Do you think there will be unusually severe traffic accidents and acts of violence?

Lesson Printing Fund.—The funds for printing Lesson No. 92 have been donated by the late Dr. N. B. Williams, of Tullahoma, Tenn. A Unit of \$25.00 has been received from another member, who wishes not be mentioned. It will be applied toward printing Lesson No. 52. Our thanks are due these public-minded persons, and we trust others will also contribute toward getting the lessons printed.

Brotherhood of Light Astrological Reports No. 6, No. 7 and No. 8.—These reports are based upon major progressed aspects. The analyses here presented were made by the Monday evening class of The Brotherhood of Light in Los Angeles during the autumn of 1930.

In these tables no aspect is included having a greater orb than one degree. No tampering with the time of birth has been done, and all charts received to date have been included. Aspects made by the progressed Asc. and M. C. are not included, and except in the one table devoted to the Moon's progressed aspects, the aspects made by the progressed Moon are not here included unless the Moon is the exclusive ruler of the house involved. The results, consequently, are practical; such as are obtained in the ordinary run of astrological practice. That our work may at any time be checked as to accuracy, both the original sheet furnished by informant, and the birth-chart with progressions worked out, in each case are kept on file in our office.
